### Polk-Burnett Delivery Program

**AUTO FILL** (*FULL-TIME* residence or business)

Deliveries are scheduled by Polk-Burnett in an effort to maintain uninterrupted propane service, **providing your account is current.**

**note: Auto fill is just an estimate.** Our software utilizes fuel usage history and heating degree days to estimate how much LP you are most likely using. If you have heavy sporadic or inconsistent usage *our estimate will not be accurate.* We ask that you periodically check your tank and call/email updated tank percentages if there are changes or spikes in usage or if you find your tank at 20-30%. We also request that you keep us updated on the addition or removal of propane appliances or alternate heat sources.

**IMPORTANT:** If you are interested in auto fill for a **seasonal** or **PT residence**, tank monitor installation is required (\$6/mth billed annually in May or prorated once monitor has been installed). Please submit a monitor agreement instead if this is the case.

**WILL CALL**

Deliveries are initiated by you, the customer. You are required to give a five business-day notice when the tank reads 20-30%. If an immediate delivery is needed, Polk-Burnett will do its best to accommodate. However, extra charges will be assessed.
