1. Have member complete Farm Wiring Grant Program Application & Contract.
2. Request state electric inspection from Department of Commerce. A copy of the inspection will be provided to Polk-Burnett and member.
3. Member needs to obtain bids for work that needs to be completed from two licensed electrical contractors who have successfully completed training through the Safety First Rewiring Program.
4. Project needs Polk-Burnett board approval.
5. Polk-Burnett will apply for grant dollars from WECA (20% of the cost of the project, or \$6,000, whichever is lower).
6. After electrical work is complete, Polk-Burnett will schedule a post inspection by state electrical inspector.
